In case you cannot decide for any alternative Rate Plan or Service, then the contract will be terminated at the end of the notice period.

Any additional Waiver of Termination resulting from a new Minimum Contract Duration begins with the first day of the following month, but not before the first day of the following month after the expiration of the previously agreed Minimum Contract Duration.

If we change our General Terms and Conditions or Pricing in a way that is favorable to you, then the right of Exceptional Termination is not applicable. The outstanding fees defined in this Paragraph 25 will not be invoiced in case there exist legitimate circumstances on your side, which entitle you to an Exceptional Termination.

In this case, we will send you a proposal for a consensual contract amendment at least 1 month before the proposed amendments become effective. The proposal will be sent to the address provided by you as defined in Paragraph 3.

We will submit such a proposal at least in written form, for example as a part of an invoice or as an attachment to it. The proposal will include the changes to the General Terms and Conditions, Service Descriptions or Pricing. Even in cases in which we change only a part of a Paragraph, we will send you the complete modified Paragraph. We will also inform you of the date in which the proposed amendments become effective.

If you do not communicate any objection to the new or amended General Terms and Conditions, Service Descriptions and Pricing before becoming effective, then they are deemed as accepted by you. You will be informed about this in our proposal.

In case you object the proposed amendments before the day they become effective (0 hours), then the proposed amendments will not be applicable to you and your existing Contract will continue being in force without the amendments. You can expose your objection for example in written form to Freeway GmbH or verbally to our Service Line.
